

WAG is pleased to present a seminar with

Dr. Laurie McCauley

of Top's Veterinary Rehabilitation - Grayslake, IL

August 19th and 20th for 2 - One Day Seminars

Dr. Laurie McCauley is a 1992 graduate of Colorado State University School of Veterinary Medicine. After six years of general practice she explored the potential of the emerging field of canine rehabilitation. After studying and performing research in this field she opened TOPS Veterinary Rehabilitation (www.tops-vet-rehab.com), the first referral only rehabilitation specific veterinary facility. In 1999 she received her certification by the International Veterinary Acupuncture Society (IVAS) in veterinary acupuncture and in 2000 she earned her certification in Veterinary Chiropractic by the American Veterinary Chiropractic Association (AVCA). Dr. McCauley implemented and consequently institutionalized the first underwater treadmill for canine sports medicine and rehabilitation and continues to work with companies on innovative rehabilitation equipment. She is a contributing author in Canine Rehabilitation and Physical Therapy as well as Clinical Textbook for Veterinary Technicians. Since opening TOPS in 1998 it has become one of the world's most advanced and respected rehabilitation clinics, catering to everything from geriatric arthritic patients to world class canine athletes to the severely paralyzed patient. Her show and performance patients have included Westminster winners as well as nationally and internationally competitive agility dogs and even the first "Miss Dog America". She has developed numerous exercises and a stretching protocol that can benefit athletes, pets and show dogs alike. After creating an on line community connecting hundreds of veterinarians, physical therapists and veterinary technicians who are participating in canine rehabilitation she is now in the process of forming the American Veterinary Physical Rehabilitation Association (AVPRA). She lectures nationally and internationally on the topic of canine rehabilitation and is now on faculty at the Animal Rehabilitation Institute, one of only two institutions offering a certificate in canine rehabilitation.

Topics to be covered in this seminar will be --

- General Anatomy
- Gait Analysis/looking at problems
- Preventing injuries
- Stretching
- Simple Stretching Exercises
- Warm-up and cool down
- Hands on Massage

Location --

WAG Training Building , 7705D Industrial Court, Spring Grove, IL 60081

Cost --

Working Spots: \$125 for WAG members - \$150 Non Members

limited to 10 working teams (can bring more than one dog but only one dog per exercise)

Auditors: \$65 for WAG members - \$75 Non Members

unlimited auditors

Sweet rolls, Lunch and a Snack in the afternoon will be included.

Auditors will be given question and answer periods of 10 minutes after each major topic... massage, passive range of motion, etc. Dr. McCauley would like working dogs / people to be able to sit in a semi circle around her so they can practice while she explains what to do. The working part is very hands on and there is no better way to learn than to practice on your own dog while learning. Working spot participants can bring a chair and sit while Dr. Laurie explains general stuff and exercises or during question and answer periods but the massage and passive range of motion sections are done on the floor.

Dr. Laurie McCauley Seminar -Reservation Form

Deposits of \$75 are required to hold a working spot and \$30 for an audit spot. The balance is due 1 month before the seminar (July 20th) and there will be no refunds unless a alternate from the waiting list is able to attend in your place.

Please send Deposit and Reservation Form (CHECKS MADE PAYABLE TO WAG) to:

Diane Sanders
13805 Sunset Ridge
Woodstock, IL 60098
