Those Dog Days of Summer

[Tips for keeping your dog
cool in August](#)

What is the Dog Star?

The month of August is often referred to as the "dog days of summer" but not because of pet pooches. It has to do with the star Sirius, also known as the dog star, which rose at the same time as sunrise during the month of August in ancient Roman times.

It is possible to exercise both brain and body while keeping a dog cool as temperatures rise outside.

5 Ways to Beat the Heat (Safely)

When it comes to summer desserts, nothing beats an icy cold treat straight from the freezer. From ice cream and sorbet, to popsicles and granita, there's nothing like a hot summer day, to make you crave something frozen.

15 LIGHT AND EASY FROZEN TREATS FOR HOT SUMMER DAYS
