Snooker 345C

Briefing:

In the opening everything is bi-directional. The combo can be taken any way as long as you do all parts. In the closing it is as numbered.

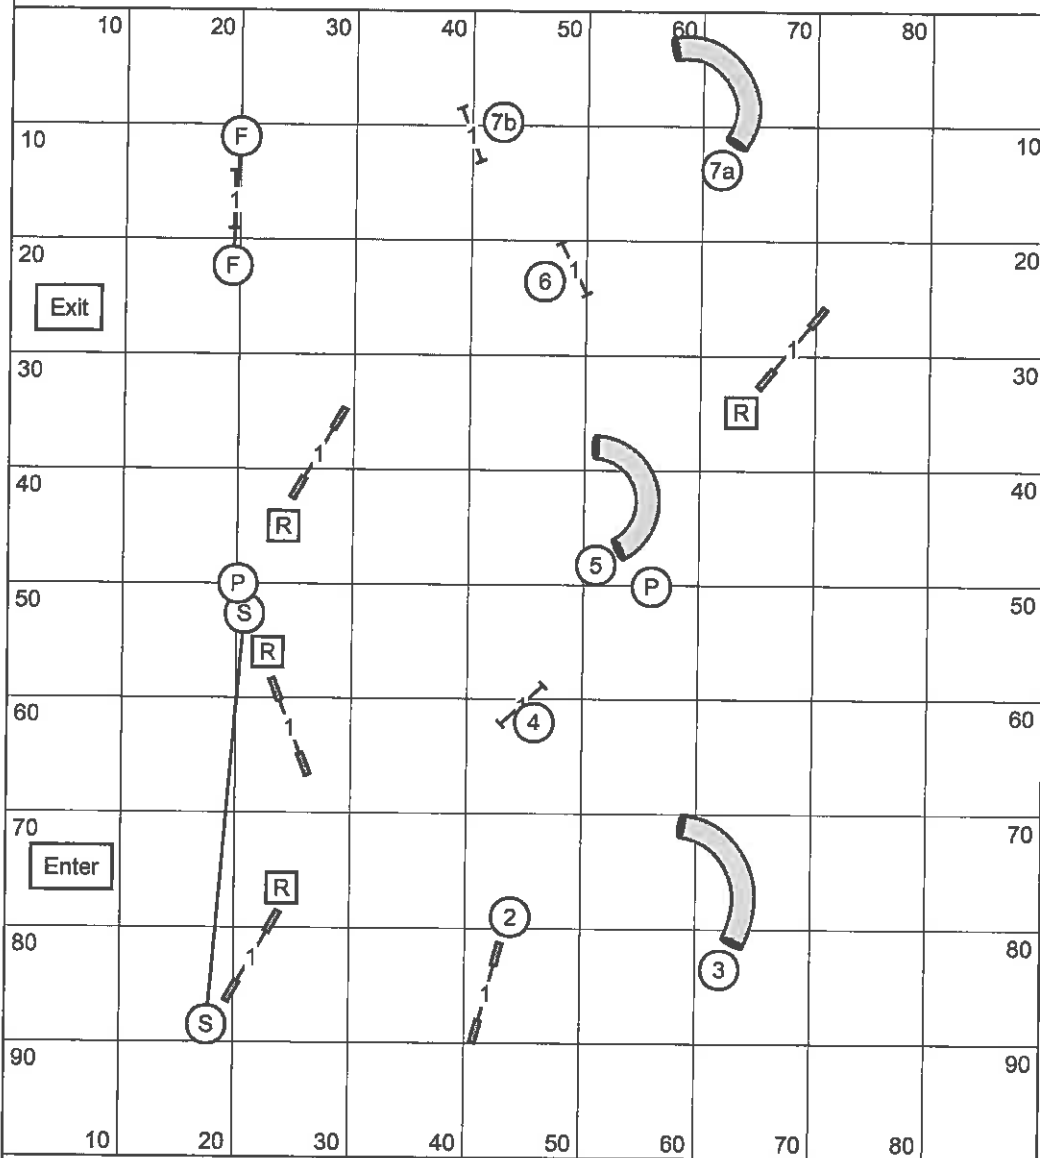

Colors or numbers, may be taken as many times as needed but remember your reds can only be taken once.

The finish jump is live once you have completed the opening sequence, after the horn has blown, when you direct your dog to it or when I say "Thank You". Finish jump is bidirectional and just needs to be taken to stop the clock.

Build A Brat

Opening: collect points for obstacles completed successfully.

Everything may be taken twice for points

The way to Build A Brat is to take a 1 point obstacle (bun), followed by a 5 pt obstacle (brat) followed by a 3 pt obstacle(sauerkraut). During the opening, you can collect up to three "Brats". For each Brat you collect, you earn 20 points. They must be taken in the order of 1-5-3. You must have 1 Brat to qualify.

Closing: once the horn blows, you can continue to collect points for obstacles completed successfully. All obstacles reset and may be taken an additional 2x in the closing.

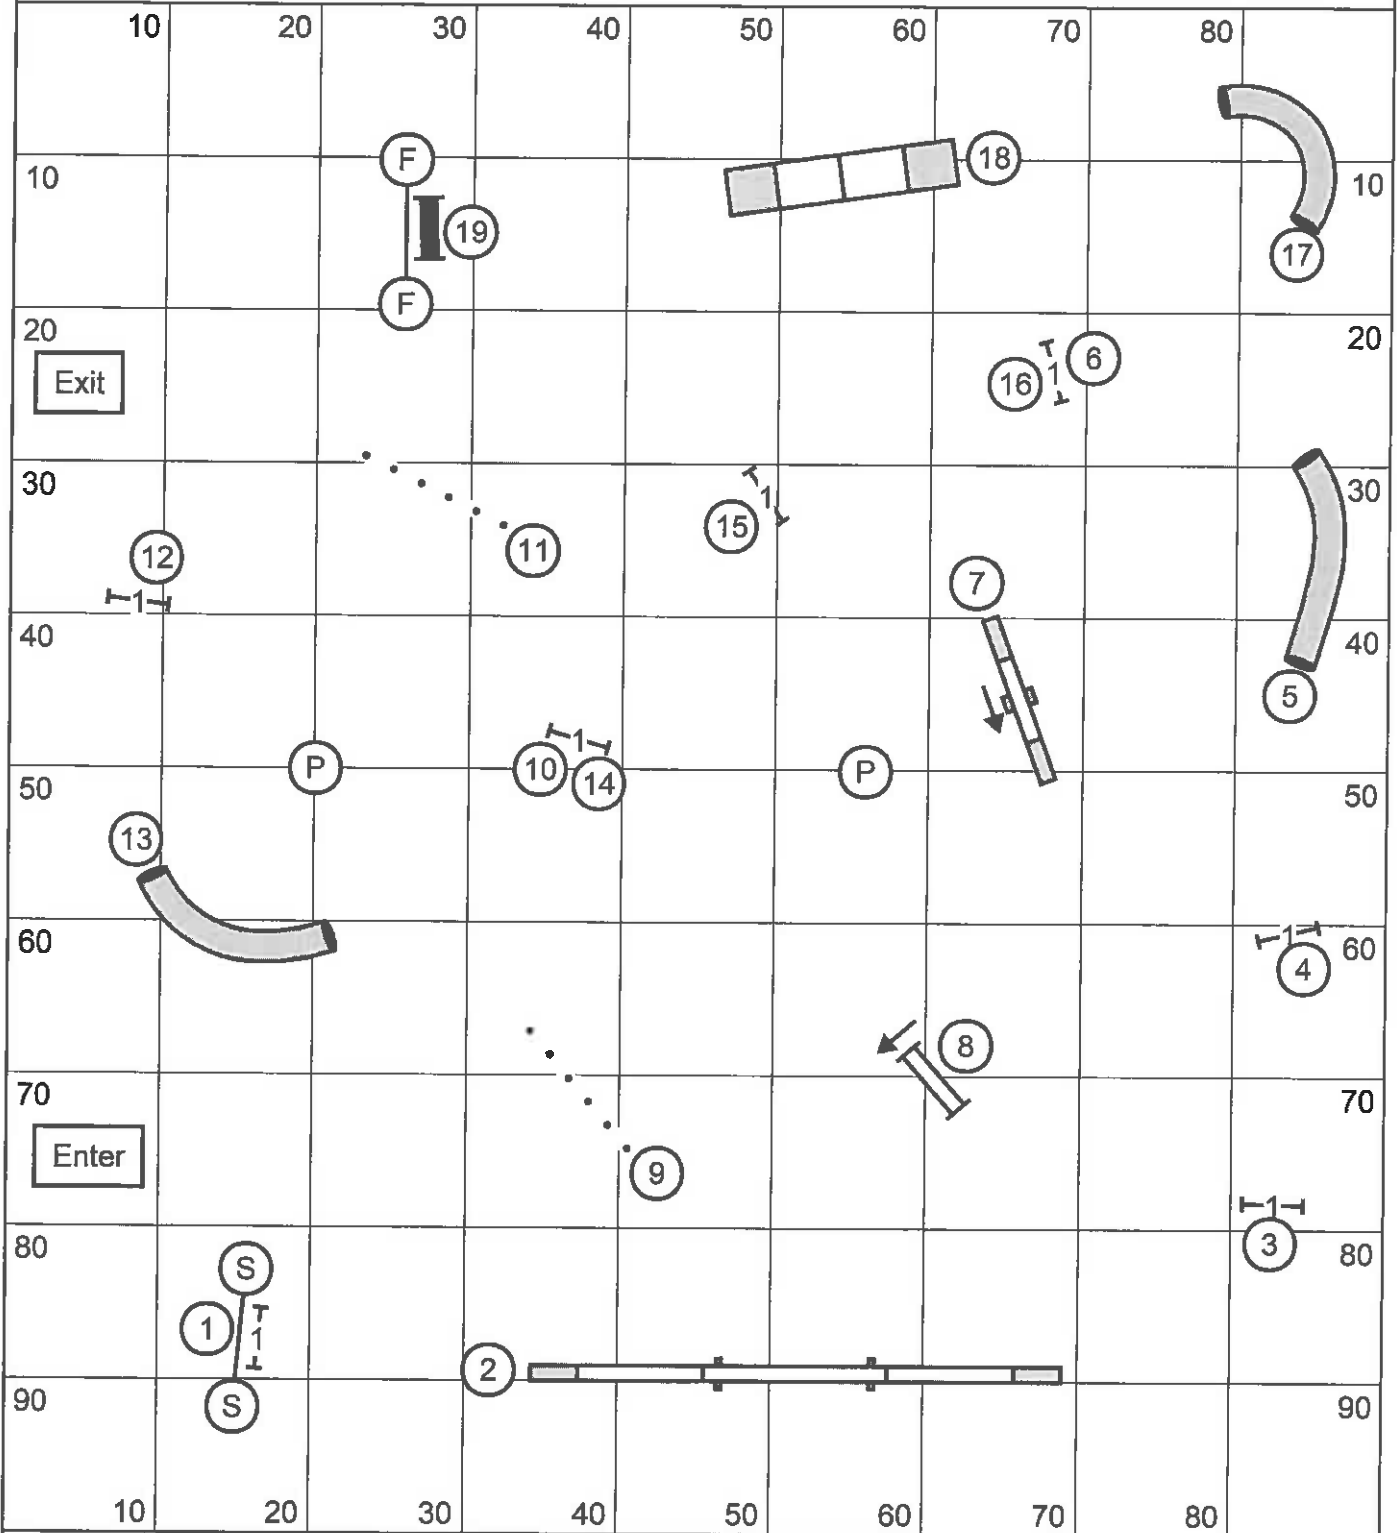

You must finish on the finish jump to put the onions on your Brat and secure your points.

Remember, you cannot be over time to qualify. You can go to the table after horn blows.
