

Sherry is a well known local dog agility trainer with over 20 years of experience in many facets of dog agility.

Sherry's training philosophy is based on positive methods. She has experience in training multiple breeds and currently has students with many different breeds from all breed groups and many mixed breeds as well. She is also very experienced with motivational issues and the "over" motivated dogs.

Her biggest strength is the ability to problem solve. She understands all types of dogs, big/small, fast/slow. She is not just able to help very motivated dogs but dogs who need motivation as well. She evaluates each dog and handler as a team and assists accordingly. She teaches a mix of obstacle focus (distance) and handler focus.

Sherry's agility competition history includes being selected to compete with the AKC World Team in France, as well as being a finalist at both USDAA and AKC National events and won a Gold Medal at the ESPN Great Outdoor Games two years in a row.

Along with these bigger competitions you will also see her at local events competing with her border collies.
